EDUCATION

KCE Societys College of Engineering & Management

B.TECH | Computer Engineering

CGPA: 8.18

Jalgaon, Maharashtra

July 2019 - Aug 2023

Gyanjoyt Vidyalaya

HSC | Percentage: 60.62%

Surat, Gujarat

June 2018 - March 2019

EXPERIENCE

Sridix Technology | ReactJs Developer

Surat, Gujarat | Sep 2024 - Present

- Working as a Frontend Developer on multiple real-time projects using ReactJS, Next.js, Redux Toolkit, SCSS, Bootstrap, and REST APIs.
- Built pixel-perfect, production-ready UI for Kesaria Textile and Kapoor Lehenga Saree, converting designs directly from Figma into responsive, reusable React components.
- Worked on a Document Management System (DMS) featuring document upload, role-based access, user permissions, document assignment, and email-trigger functionality.
- Implemented SEO-friendly structures, metadata, sitemap usage, and clean URL routing to support better search visibility.
- Collaborated on ERP modules (Accounting, Sales, Purchase, Inventory) by developing frontend interfaces, integrating APIs, and supporting backend developers with UI workflow implementation.
- Contributed to a PDF Editing Tool using FabricJS + Canvas, enabling text editing, drag-and-drop elements, annotations, resizing, and export functionalities.
- Managed project deployment and hosting configurations on Hostinger, including environment setup, build optimization, domain management, and live issue debugging.
- Integrated RESTful APIs with smooth handling of loading states, error states, and optimized data management using Redux Toolkit.
- Strengthened core skills in debugging, code optimization, component structuring, responsive design, Git workflow, and working in an Agile-like environment.
- Worked on a full-stack resume builder project, contributing to backend development using Node.js and MySQL, including API integration, authentication flow, database handling, and payment workflow support, gaining practical full-stack development exposure.

Webito Infotech | ReactJs Developer Intern

Surat, Gujarat | Aug 2024 - Sep 2024

- Built a simple caf website using HTML and CSS as part of hands-on learning.
- Developed a basic Login and Registration page using HTML forms.
- Learned core CSS concepts and created responsive layouts using Bootstrap. Gained practical experience with JavaScript for client-side interactions and improving HTML pages. Strengthened fundamentals of front-end development during college internship.

R3 Systems India Pvt. Ltd. | Internship in Web Development

Remote | Nov 2021 - Jan 2022

- Worked on basic web development tasks while learning HTML, CSS, and JavaScript.
- Assisted the team in building simple UI components and improving page layouts.
- Learned how websites are structured, hosted, and maintained in a professional setting.
- Gained early exposure to teamwork, project workflows, and coding best practices during college.

Libraries/Frameworks: React.js, Next.js, Node.js, Redux Toolkit, Firebase, HTML5, CSS3, SCSS,

Bootstrap, React Bootstrap

Tools / Platforms: VS Code, Git, GitHub, Hostinger, Netlify, Vercel

Databases: SQL, MySQL

PROJECTS / OPEN-SOURCE

Kesaria Textile Company SEO-Optimized Textile Marketplace Website | [Link](#)

ReactJS, Redux

Toolkit, SCSS, React-Bootstrap

- Developed a highly optimized, SEO-friendly textile marketplace website that ranks at the top of Google for multiple textile-related keywords. Implemented a detailed market-area structure covering all countries, Indian states, and major cities to enhance search visibility and organic reach. Integrated dynamic sitemap generation and followed Google Search Engine guidelines to ensure fast indexing and improved rankings.
- Focused on clean UI/UX, modular SCSS architecture, responsive design with React-Bootstrap, and scalable state management using Redux Toolkit. Ensured accessibility, browser compatibility, and smooth performance across all devices.

Kapoor Lehenga Saree E-Commerce Platform | Link *ReactJS, Redux Toolkit, React-Bootstrap, Razorpay*

- Built a fully functional e-commerce platform with dynamic product listings, advanced cart management, and secure online payments through Razorpay. Implemented scalable global state management using Redux Toolkit and integrated all backend APIs for seamless data flow. Designed responsive UI components with React-Bootstrap and added real-time order status updates to enhance the overall user experience across devices.

The Magic Homes Property Rental & Listing Platform | Link *Next.js, Redux Toolkit, Bootstrap, Firebase*

- Built a full-featured property rental and sales portal where landlords can list houses, villas, and apartments for rent or sale, and users can browse listings, log in, and send enquiries directly to property owners. Implemented user authentication, dynamic property listing posting, enquiry forms, and seamless data management with Firebase. Employed Redux Toolkit for efficient global state management and Next.js for server-side rendering and routing to optimize performance. Used Bootstrap for responsive UI design across devices. Added foundational SEO optimizations (meta tags, structured URLs, basic on-site SEO practices) to improve visibility and search engine indexing.
- Focused on delivering a clean, intuitive user experience ensuring ease of listing creation, property browsing, and enquiry submission for both property owners and seekers.

Goldman ERP Software | Link *React.js, Bootstrap, Vuexy Template*

- Developed a modular ERP system to manage sales, purchases, inventory, and accounting processes.
- Implemented a dashboard with real-time sales and purchase analytics, along with modules for party and item management, transaction handling, and voucher entries including receipt, payment, contra, and journal. The system improves operational efficiency and financial tracking for businesses.

Resume Builder (Work as Full Stack) | Link *Next.js, Node.js, MySQL, Bootstrap, Razorpay, Stripe*

- Developed a full-stack resume builder application with secure user authentication and role-based access. Implemented login and registration using email as well as social authentication via Google, Facebook, and LinkedIn. Users can choose from multiple resume templates, create and manage resumes, and export them in a professional format.
- Premium resume templates are accessible through subscription upgrades, integrated using Razorpay and Stripe payment gateways. The application uses a MySQL database for persistent data storage and is designed for scalability and smooth user experience.
